

**Replacement Parts & Accessories**  
PQMII - Power Quality Meter - Parts

**Ceramic Fuse**

Part Number: **0901-0061**

**Glass Fuse**

Part Number: **0901-0041**

**Terminal Cover**

Part Number: **1513-0019**

**Fuse Cover**

Part Number: **1513-0035**

**Terminal Cover**

Part Number: **1513-0041**

The PQM II is an ideal choice when continuous monitoring of a three phase system is required. It provides metering for current, voltage, real and reactive power, energy use, cost of power, power factor and frequency. Programmable setpoints and 4 assignable output relays allow control functions to be added for specific applications. This includes basic alarm on over/under current or voltage, unbalance, demand based load shedding, and capacitor power factor correction control. More complex control is possible using the 4 switch inputs which also can be used for status such as breaker open/closed, flow information etc.

**Applications**

- Metering of distribution feeders, transformers, generators, capacitor banks and motors
- Medium and low voltage systems
- Commercial, industrial, utility
- Flexible control for demand load shedding, power factor, etc.
- Power Quality analysis tool
